

## Description of products grades:

**ANB:** AmonA Beijing product

RC -- rectangular cut core

TG – toroidal gapped core

TN – toroidal gapless choke core

CM – common mode core

ACT – AC current transformer core

PT – power transformer core

**Products type:**

RCC -- rectangular cut core coil

TGC – toroidal gapped coil

TNC – toroidal gapless choke coil

CMC – common mode coil

DTC – DC current transformer core

MA – Magamp or Pulse killer core

**Size info:** OD: Outer diameter(mm), ID: Inner diameter, HT: Height

**Property type:** L--flat BH loop; H--Rectangular BH loop; R-- Round BH loop

**For examples:** ANB-TN181110-L1 AmonA's toroid gapless choke core  
core size: 18(OD)×11(ID)×10(HT), L: flat BH loop type, 1: permeability 250 level
